DESCRIBE THE PRESENT AND ORIGINAL (If known) PHYSICAL APPEARANCE	
<p>This utilitarian, pre-Miesian vernacular, two story structure, which was undoubtedly originally used as a warehouse, now serves as a parking garage on the basement and first floor levels, and as a warehouse on the second.</p> <p>Its four bay facade is defined by five exposed, shallowly projecting concrete-covered steel piers, which form a grid on the facade with the beams which are exposed in a like manner. The bays are filled in with low courses of brick extending from post to post, topped by industrially-sashed, four light high windows in modules of 20 and 24 lights into which horizontally-hinged casements are let.</p> <p>Some time after the building was completed, a first floor entrance was bricked up and a platform removed, and broad concrete ramps to accomodate automobiles were let inot the basement and first floor. Two raked skylights extend above the roofline, and a small penthouse rests on the roof.</p>
